

PHYSICIANS WHO ACCEPT MEDICARE AND MEDICAID

Physicians Taking Medicare Assignment

Most doctors in our area will accept Medicare assignment, which means that their fees are the amount that Medicare will reimburse. Those physicians NOT accepting Medicare assignment are limited by Federal law to charge no more than 15% of the Medicare approved charge. If your doctor does NOT accept Medicare assignment, he may submit your bill to Medicare, but Medicare will send the check to you, and you will then pay the doctor.

Primary Care Physicians in Somerset County accepting Medicare assignment

Some may not accept new patients. Call ahead to see if they currently accept new patients.

Physicians Accepting Medicaid Patients

The list of physicians who will accept Medicaid patients changes from year to year. Since the introduction of Medicaid HMOs, you must call the doctor first to be sure he/she participates in your plan. Some providers do not accept new patients, you must call ahead to be sure that these doctors are still working with Medicaid.

To find a doctor who accepts new Medicaid patients, you must call your HMO provider, listed on your Medicaid HMO card.
